## THE PICTURE

From the historic shores of St. Andrews, across the green-blue waters of the Bay of Fundy, beyond where the Old Sow whirlpool churns and the East Quoddy lighthouse shines, live some of the last great wonders of the world. Yes! We have feeding whales, playful porpoises, soaring eagles, sunning seals, sometimes puffins and more. Much more! Incredible tides rush between ancient islands, whilst a jolly breeze tickles the sails and a bright sun warms your face.

## THE STORY

**“Jolly Breeze” is the most Beautiful and Largest Motor/Sailing Passenger Vessel in St. Andrews.**

Finely crafted as a pleasure yacht in New Zealand in 1989, Jolly Breeze has sailed the great oceans of the world, covering more than 25,000 miles. Starting in 1995, the ship has operated out of St. Andrews as a sightseeing vessel. Drawn on the traditional lines of the famous French pilot cutter “Jolie Brise” of La Havre, our Jolly Breeze also features advanced navigational tools, and modern safety systems. We undergo annual inspection and passenger vessel certification by Transport Canada.

From the moment you board our floating home, your comfort, safety and enjoyment is our goal.

**“AHOY!”**

Your hosts, Joanne and Robert Carney, purchased Jolly Breeze in 2004. Forming “Tall Ship Whale Adventures,” we are able to combine three of our biggest loves...

**Natural Wonders, Sailing Ships and Smiling People.**
